

PHILANTHROPY AND COMMUNITY OUTREACH

D'Arrigo California supports an array of philanthropic organizations. The company believes that when people help one another, everyone's quality of life improves. Helping build and support healthy communities is a **CORE VALUE** for D'Arrigo California.

- Team D'Arrigo has been one of the **top fund raisers** for the American Cancer Society's Relay for Life over the last several years.
- The Agriculture Leadership Council (TALC), founded in 2010 by John D'Arrigo has raised over **\$2,600,000** to support the Natividad Medical Center to improve healthcare of agricultural workers.
- D'Arrigo California's financial support to The Breast Cancer Research Foundation® exceeds **\$1,849,000** since 1999 to support innovative breast cancer research.

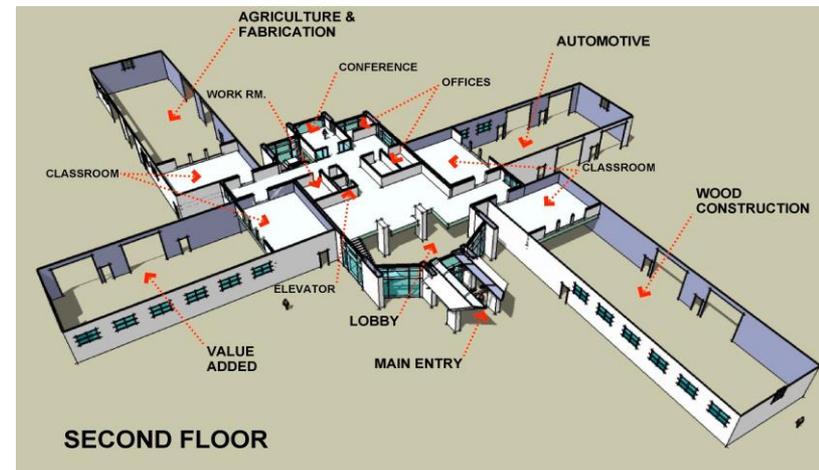

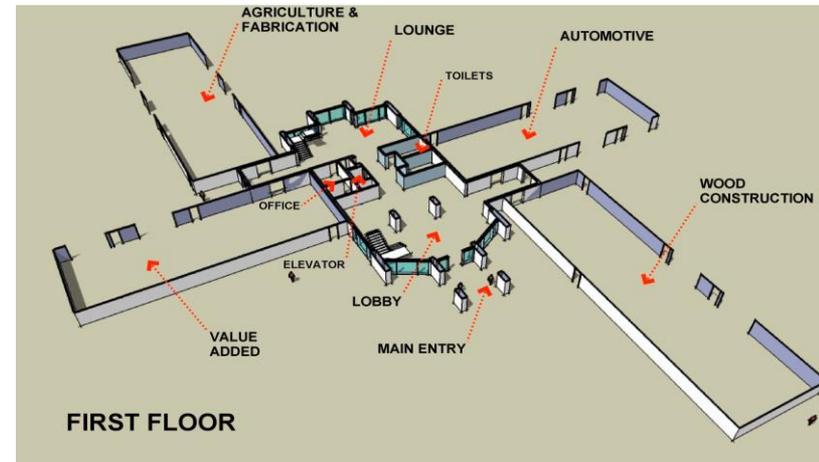

KINSHIP CENTER

D'Arrigo California proudly funds and serves Kinship Center, which is committed to creating and supporting permanent families for children through adoption or other guardianship programs.

RANCHO CIELO

D'Arrigo California partners with Rancho Cielo Youth Campus to transform the lives of at-risk youth and empower them to become accountable, competent, productive and responsible citizens.

Ted Taylor Vocation Agriculture Center groundbreaking took place April 8, 2017. The goal is to train their population for jobs in Agriculture. This will almost double the campus population. D'Arrigo, by virtue of a very early commitment to the project, has the naming rights to one of the four wings.

SUN STREET CENTERS

Sun Street Centers aims to prevent alcohol and drug addiction by offering education, prevention, treatment and recovery to individuals and families regardless of income level.

D'Arrigo California donated to Sun Street Centers' ongoing campaign, Renovations for Recovery, for capital improvements to the men's recovery center.

SOLAR POWER SYSTEM

PHASE 1 AND PHASE 2:

D'Arrigo California deployed a 2.2MW Solar System in April 2016.

- Our system is the largest customer-owned net metered solar power project in Monterey County.
- The system will help D'Arrigo hedge against future utility rate increases, delivering more than \$20 million in utility savings over the next 25 years.
- In addition to the financial savings, the system will also help in California's efforts to mitigate climate change. This project will significantly reduce CO2 emissions — the equivalent of avoided emissions from not driving 7,282,000 miles per year.

SOLAR POWER SYSTEM

PHASE 3: Gonzales, CA

D'Arrigo California deployed a 1.1MW Solar System in January 2018.

- Over 25 years, the new system in Gonzales, CA will offset carbon emissions equivalent to removing 8,750 cars from the road.
- The solar power will replace the traditional electrical power on 14 of 17 ranch meters that are active on 1,139 acres.

SOLAR POWER SYSTEM

SOLAR POWER SYSTEM PHASE 4 TIMELAPSE

SOLAR POWER SYSTEM

System Summary

Phase 1 and Phase 2: Completed 2016

- Salinas: Ranch 1 generates 2.2 MW
- 7,200 solar panels
- 16 acres
- Solar power will offset cooler operational costs

Phase 3: Completed Jan. 2018

- Gonzales: Ranch 7 generates approximately 1.1 MW
- Approximately 3,600 solar panels
- Approximately 8 acres
- Solar power will offset ranch meter costs by 50%

Phase 4 – Expected Completion Date: Q1 2019

- Salinas: Ranch 1 will generate an additional 2.2MW for a total of 4.4 MW
- Additional 7,200 solar panels for a total of 14,400 solar panels on Ranch 1
- Additional 15 acres to total 31 acres of solar panels on Ranch 1
- Addition of 2 Tesla Batteries to minimize PG&E peak usage demand charges
- Solar power generated from phases 1, 2 and 4 will offset ranch and facility meter costs by 87%
